

MIZVOODOO DOLL

Kick it, Stab it, Crush it, Cut it

Have you ever felt like kicking something when watching a KU v MU game?

We'll don't take it out on your couch, wall, or nearest pane of glass. Inflict some pain on Fizzou through the long standing art of effigy mutilation.

Carefully cut out the three shapes on this page. Fold along the dotted lines. Use a hobby knife to slit the white lines labeled with letters. You can tape or glue tabs as well.

Thicker paper is recommended.
